Arab Steel Summit 2017

24 - 26 October 2017

In Cooperation with

MAGHREB STEEL

HYATT REGENCY / CASABLANCA / MOROCCO

Arab Steel Summit 2017

The Arab region has become one of the fastest growing regions in the iron and steel industry in last decades . It is one of the most attractive regions investment, which has raised Arab steel production from about two million tons in the early 1970 to more than 30 million now . This is evidence of the growing strength of Arab economies. The strength of the steel industry in any country shows the strength of its economy and the ten largest producers of steel are top ten economies of world

AISU confirms activate and strengthen cooperation and exchange of experiences between its members and Arab and international companies through organizing a number of conferences and seminars annually to be a forum for many Arab and international companies, steel industry experts and technology owners and those who interested in this industry as investors and businessmen under the name " Arab Steel Summit " . Which is attended by the largest steel companies and international organizations, which is a suitable environment for companies to display their products and a display of innovations and modern technological solutions that help in the development of the productivity of the iron and steel industry in the Arab countries.

Arab Steel Summit 2017

The Arab Iron and Steel Union (AISU) glad to inform you that its annual 2017 conference under the title "**The Arab Steel Summit 2017**" will be held in Casablanca / Morocco, in the period **24 – 26 October 2017** (Hyatt Regency Hotel).

This summit holds a special importance, especially under the current circumstances through which the steel industry is passing in the Arab countries and in the countries of the world as well.

The convention of this important event will be a meeting for many Arab and world companies, steel industry experts, technologies holders and the interested people in this industry of investors, businessmen and economic activities as well as a continuation of the successes achieved by AISU's previous annual conferences the last of which was "The Arab Steel Summit 2016" held in Dubai / U.A.E.

Concurrently with the Arab Steel Summit 2017, AISU will organize "**The International Iron and Steel Exhibition 2017**" which will provide a suitable environment for the companies to exhibit their iron and steel products or the innovations and latest technological solutions which help in developing the productivity of the iron and steel industry, in addition to its being the appropriate opportunity for the meeting of producers with the firms and companies active in the field of the iron and steel trade.

AISU welcomes your effective participation in "**The Arab Steel Summit 2017**" and invites you to contribute by presenting working papers reflecting your points of view and experiences to what is related to the development of this industry at both regional and world levels. We also welcome your recommendations for making this meeting a forum for exchanging opinions about whatever serves the development of this industry, its integration and continued growth on all production, commercial and marketing scales.

We invite you to:

- Participate in the Arab Steel Summit 2017.
- Take part in the sponsorship of the Arab Steel Summit 2017.
- Book your place in the World Steel Exhibition 2017.
- Present a Working paper to the Arab Steel Summit 2017.

<http://aisucairo.com/arabsteel>

Main Topics:

- The Arab Steel Industry: Competitive position and growth strategies.
- Opportunities and trends of investment in this industry in the Arab region.
- Prospects of the world steel industry during 2017 and opportunities and trends of investment in the steel industry in the Arab countries.
- Impacts of oil prices changes on the development of investments in the steel industry.
- The Arab steel markets: Trends of import and export.
- The new technologies and their role in the development of steel production in a number of regions.
- Raw materials: An outlook on the availability of the raw materials and their impact on the future growth of the steel industry.
- Consolidation and merger in the world steel industry and their impact on the steel markets.
- Trends of growth and development in the steel industry and steel markets in a number of regions in the world.

Who will attend ?

- The companies producing steel long products.
- The companies producing steel flat products.
- The companies producing steel pipes.
- The companies producing the raw materials and accessories of the iron & steel industry.
- Iron and steel related machinery and plant makers.
- Steel traders (imports and exporters).
- Oil and gas companies.
- Iron and steel-using companies
- Technology and equipment suppliers.
- Consultants, analysts.
- R&D Establishment.
- Investors and businessmen in engineering
